Elmont, NY 11003

Dear Ms. Stanczuk:

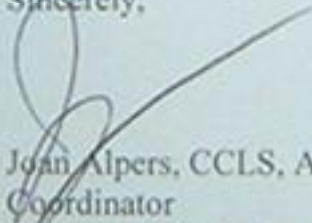

Thank you for your gift of bunnies and angel pins to our children at Schneider Children's Hospital. As you have learned through your own experiences, sometimes the simplest intervention can make a lasting change in the way a person feels about their illness or about the actions that they later take because of it.

Donations like yours foster and enhance our ability to provide quality programming to help children cope with and master the challenges brought about by sickness. You have provided abundant play time and comfort time to our children. The children and families we care for are most appreciative of your kindness and caring support.

The Child Life Program is dedicated to helping children grow and develop to their fullest capacity regardless of illness or disability. We try in every way we can to help them through the hard parts of hospitalization and treatment. You are our partners in this, and we thank you.

Please accept our sincere apologies for the long delay in acknowledging your thoughtful contribution. The Child Life Program has undergone managerial changes and is in the process of renovating and updating its office equipment and facilities. Unfortunately, this has caused the unavoidable predicament of backlog and delay in correspondence.

Sincerely,

Joan Alpers, CCLS, ATR
Coordinator
Child Life Program
