Ms. Kathleen H. Sarna  
Three Strohm Sisters Family Foundation  
P.O. Box 037962  
Elmont, NY 11002

Dear Ms. Sarna,

On behalf of the Board of Directors of the Samuel Waxman Cancer Research Foundation, thank you for your recent donation of **\$30,000.00**.

Founded in 1976, the Foundation is unique in that its research is concept driven, and based on the principle that cancer is reversible. In an international "Institute Without Walls", our research team at Mount Sinai collaborates with leading hospitals and medical schools in the US and across the globe to place our investigators at the forefront of cancer research.

In the coming year, the Foundation intends to significantly expand our carefully vetted research programs, moving more projects into animal and clinical studies, to bring us closer to a cure and, if not, to make cancer a chronic condition rather one that poses life-threatening challenges.

By supporting this groundbreaking approach to the fight against cancer, you are an integral part of the search for a cure.

Sincerely,

  
Merle D. Kailas  
Executive Director
